

School ID Cards

Security

Nothing facilitates learning quite like a safe, secure school environment. In today's schools, the ability to quickly and positively identify individuals is the nucleus of any safety and security plan.

Full-color photo ID cards for faculty, staff, and students help identify those who are supposed to be on there – and those who are not.

Visitor badges (with or without photos) can also be created.

Library

As school library automation systems expand the breadth of their offerings, bar coding continues to be the choice of medium to identify books and library patrons - your students.

ID bar codes can be compatible with any of the dozens of library software programs used today.

Other Applications

Fund Raising, Peer Support, Class Projects
- the list of uses are endless.

Setup £40.00 **School ID Card £2.50 each**
